How to Activate Rollback Rx

▶ Activation Required

Horizon Datasys is committed to the protection of intellectual property rights and the reduction of software piracy. Everyone in the economic chain, not just the software developer, is hurt by piracy, including the reseller, the support provider, and you, the end user.

Rollback Rx contains software-based product activation technology, which means you need to activate your copy of Rollback Rx in order to use it permanently.

▶ Activate Rollback Rx Over Internet Connection

If the computer has Rollback Rx installed is connected to Internet, you might easily activate Rollback Rx over the Internet connection.

1. Upon the purchase of Rollback Rx, you will receive an authorized Product ID from Horizon Datasys. You might install Rollback Rx with the authorized Product ID and then activate it, or if you already have a demo version of Rollback Rx installed, you might activate the demo install with the authorized Product ID without uninstall and reinstall the program.

2. To activate Rollback Rx over Internet connection, Right click the Rollback Rx system tray icon and select ABOUT from the popup menu. Click on the Activate button on the ABOUT Window, select "Activate Rollback Rx over Internet connection", click on Next.

2.a If you had installed Rollback Rx with an authorized Product ID that you had received from Horizon Datasys, simply click on Activate button.

2.b. If you had installed a demo version of Rollback Rx, you need to copy and paste the authorized Product ID that you received from Horizon Datasys into the dialog box, and then click on Activate button.

The computer will need to restart to complete the activation process. That is it! You won't need to input any other information.

* You can only activate the number of computers authorized by the authorized Product ID.

▶ **Activate Rollback Rx Without Internet Connection**

If the computer has Rollback Rx installed does not have an Internet connection, you need to manually activate Rollback Rx.

1. To manually register Rollback Rx, Right click the Rollback Rx system tray icon and select ABOUT from the popup menu. Click on the REGISTER button on the ABOUT Window, select "Activate Rollback Rx without Internet connection", click on Next.
2. On the Product Activation Window, you will see a Product ID and a Registration ID, write down those two IDs and send them to Horizon Datasys Tech support by fax or phone.
3. Horizon Datasys Tech Support will reply you a Registration Code based on the Product ID and Registration ID you provided.
4. You need to copy and paste the Registration Code into the Registration Code dialog box on the Register windows and then on Activate button.

The computer will need to restart to complete the registration process. That is it! You won't need to input any other information.
