

Below is an image of the GS1 version of this product with the barcode and HRI objects included in the database form. A working demo of this product cannot be provided, because this would reveal the complete source code, which is only available in the purchased version. The purchased version is provided with a 30 day money back satisfaction guarantee. If it is necessary to test dynamic barcodes with this product, the purchased version is required.

**IDAutomation.com Native Barcode Generator for FileMaker Example**

Data Encoded: (01)09501101020917(17)190508

(01)09501101020917(17)190508

**To add to your database:**

- 1.) In layout view copy & paste the barcode object into your database.
- 2.) Change DataToEncode to the field that is to be encoded.
- 3.) If necessary, change options at the top section of the code.
